

Annual Report Compliance

Let us relieve the burden of monitoring, preparing and submitting your annual or periodic filings

Annual Report Compliance is an add-on service provided to our Registered Agent clients that ensures their corporate entities remain active and in goodstanding.

We simplify the chore of keeping entities compliant for anyone who maintains even a single corporate entity.

This service does not handle the filing of any tax related registrations or filings required in each state such as corporate taxes, labor taxes, etc. We monitor and file the following tax related filings as it is considered part of the annual corporate report required to keep the company in goodstanding: business privilege tax reports in Alabama, personal property tax reports in Maryland, franchise tax reports in Arkansas, Delaware and Texas.

Monitoring of due dates for annual or periodic filings

- Regarding entity and state specific filing requirements

Preparation of required filing forms

- Forms gathered and completed with information provided
- Client to complete forms and review for appropriate changes
- Execute and return forms to CorpDirect for filing

Submission of completed annual or periodic filings

- Completed forms submitted to the appropriate filing office
- Electronic submission where possible
- Expedited filing service available

This service bills concurrently with your Registered Agent service renewal and covers each entity for which the service is added for the filing of one (1) report per year. Additional reports that may be required will result in a \$35 per report service fee for filing assistance by CorpDirect. State fees are not covered in the Annual Report Compliance service fee and will be outlined in the e-mail notification that forms are due to be filed.
